August 7, 2008

When we were looking for an insurance company for our personal and business needs, we wanted a company that was well known, so we picked Health Care Solutions. We didn't realize the importance of the agent until we met Anthony Biagi. He truly makes the company. We always feel when we call Anthony that he is honest and up-front with his decisions he has made for us and why. We refer a lot of our customers and friends to Anthony and they are also pleased with the prompt and personal service they receive."
